Why SharePoint? Why you do not need your NMCI laptop?

1. The Microsoft Office Online feature in SharePoint 2016 (NRH) allows for convenience in teleworking. Users are able to review, edit and save documents without having Microsoft Office installed on your personal laptop.
2. Avoid being dependent on the NMCI share drive by dragging and dropping documents to appropriate document libraries on Navy Reserve Homepage.
3. Most DoD sites are accessible with a CAC Reader
